Parabéns Português

“Today, Portugal can be proud of having a Green Growth Commitment that is no longer a political unilateral initiative but rather a strategy that was appropriated by our society.

This is the main guarantee that **green growth is not a trend in Portugal**, but a paradigm shift that is rooted in our population and a fundamental part of our future.”

– Jorge Moreira da Silva, former Minister of Environment, Spatial Planning and Energy

A photograph of three men standing on a golf course. The man on the left is wearing a green polo shirt and green pants, holding a golf club. The man in the middle is wearing a red shirt, a dark vest, and light-colored pants, also holding a golf club. The man on the right is wearing a blue jacket and dark pants, holding a golf club. They are all smiling. In the background, there are green bushes and a body of water.

"It's good for the image of golf that the people around the sport takes care of the environment and climate change. It is civilized and respected that the sport itself is doing their part on climate change"

Reino Nordin
Finnish musician
